

Take Control of Your Disbursement Accounts

DA-Desk is the world's leading DA management platform, helping ship owners and operators streamline the entire Disbursement Account process from agent nomination to final payment. By combining 20+ years of maritime expertise with automation, compliance, and cost validation, DA-Desk reduces risk, cuts costs, and delivers audit-ready accuracy. Whether you manage 50 or 5000 port calls a year, DA-Desk streamlines every step of your DA workflow while giving you full control and visibility.

DA Challenges We Solve

Manual Burden

Operators wasting time on data entry, validation, and agent queries.

Cost Leakage

Missed rebates, incorrect port charges, and unvalidated invoices.

Compliance Risk

Exposure to unvetted agents, sanctions, and fraudulent payments.

Fragmented Workflows

Disconnected systems, lack of benchmarks, and poor visibility.

What DA-Desk Delivers

Core Capabilities (always included)

Streamlined DA Workflow

From PDA to FDA with only 3 operator touchpoints.

Validation Engine (DAVE)

2,000+ automated checks across 80+ countries.

Cost Savings

Verified savings from validated PDAs and FDAs often offset the full cost of the service, turning DA-Desk into a self-funding solution.

Compliance Built-In

KYC, sanctions screening, and payment monitoring.

Integrated Reporting

Real-time financial dashboards and detailed operational reports gives both Finance and Operations teams visibility and control.

Additional Capabilities

Payments (PortPayables)

Secure, compliant, and lower-cost global payments.

Preferential Supplier Rates

Discounts on towage, pilotage, and port services.

VMS Integration

Two-way data flow for easy operations.
