

Maritime Payments That Work At Maritime Speed

In maritime, late or failed payments can stop a vessel from entering or leaving port. Port agents and vendors rely on fast, secure, and reliable payments to keep operations running smoothly.

Yet traditional banks are not built for maritime. They introduce friction with compliance delays, poor support, unclear documentation requirements, and currency conversion practices that erode trust. Manual processes and unpredictable timelines put both operations and reputation at risk.

Perform secure transactions at a low cost and pay suppliers worldwide in over 130 currencies

Instant MarTrust-to-MarTrust payments through the

Built For Maritime, Not Just Banking

MarTrust enables shipping companies to make secure, compliant, and efficient vendor payments to all maritime stakeholders—port agents and vendors—no matter where they are in the world.

Our platform reduces reliance on traditional banks that often delay payments due to manual checks, time zone differences, or missing documentation. With MarTrust, you get maritime-focused payment services, 24/7 global support, built-in fraud detection, and a dedicated compliance team that understands maritime regulations.

This means vendors get paid on time, port agents get cleared in advance, and your vessel operations stay on schedule - avoiding costly port delays due to late payments.

 Leverage industry-specific compliance, including beneficiary pre-screening, payment file sanitisation, and daily updated sanctions checks

- MarTrust Pay platform
- Access one of the world's largest payment networks with more than 99% payment success rate
- Benefit from competitive FX rates and pre-negotiated bank fees
- Automate fraud detection and AML screening on every vendor payment—ensuring 99%+ risk detection accuracy
- Reduce admin burden with 24/7 specialist support handling bank communications

Contact us today to see how MarTrust can streamline your finance operations, reduce risk, and eliminate delays.
